

AVWELD Australasia Pty Ltd & Alloys International (Australasia) Pty Ltd provides goods for and refurbishment of engineering components by fabrication processes such as, cutting, welding & thermal spraying and assemblies on a wide range of products for a client base that demands high quality products coupled with excellent service. Our objective is to supply welding products & re-manufacture goods to a standard, which exceeds our customer's needs and expectations.

Both companies, by combining resources at the one premise, shall plan, establish, implement, maintain & improve an environment management system that meet the requirements of a standard such as, AS/NZS ISO 14001 (Environmental Management Systems requirements).

We are committed to comply with the current applicable legal & statutory requirements and other requirements to which we subscribe.

We shall aim to prevent pollution & reduce the environmental impacts on land, in air, water, flora, fauna, property & noise.

Wherever reasonably practicable &/or economical we shall reduce, reuse & recycle waste materials and monitor these along with our operational outputs.

This policy statement shall be made available to employees and to the public on request and shall be reviewed at a frequency as specified in the Quality Manual.
