

## 5.2 Quality Policy

AWWELD Australasia Pty Ltd provides refurbishment of engineering components by thermal spraying, polyurethane coatings and a wide range of manufacturing, welding and metal spraying services, including laser cladding and robotic automation for a client base that demands a high-quality product coupled with excellent service. Our objective is to manufacture these goods to a standard, which exceeds our customer's needs and expectations and conforms to relevant statutory requirements.

Awmeld is committed to the maintenance of and continual improvement of the effectiveness of the Quality Management System based on the ISO 9001 international standard. The QMS shall be reviewed at intervals as specified in the Quality Manual. The management at Awmeld recognises that a quality product and good business practices are inextricably linked and is therefore committed to the ideals and goals of ISO 9001.

The company objectives & goals shall be set & monitored on a regular basis as specified in the Quality Manual.

New and existing employees shall be made aware of the company goals & the Quality Management System through the induction process.

This policy statement shall be made available to employees and to the public on request and shall be reviewed at a frequency as specified in the Quality Manual.
